BE SAFE CONSULTANTS & PROMOTIONS

Change is GOOD when you have the Right people to support you!

My name is Martin Potgieter and I am the Operations Manager for R.B.Daymond Industrial Maintenance Services. I am also the 16.2, as per the OHSA Act of 1993, for the Company.

We have been in the Construction and Maintenance Service Industry for more than 15 years, and have always kept in line with safety, on our own.

We work for many different companies and learnt more about safety with every Induction course we attended at the larger companies.

I thought we knew it all and I was quite impressed with ourselves, until. We got a contract at a large mining company and they requested our Safety file. Being very sure of our file we handed it in for evaluation, and their Safety Officer sent me a list of 23 points we did not have on file! Most of these points were Greek to me and I had to get help as the job was standing.

Luckily I knew of Shaun, who had helped us with basic safety training before. I contacted BE SAFE CONSULTANTS & PROMOTIONS and Shaun came to see me the very next day.

They went through my file, the points we did not have on file, and told me to relax, they would sort it out. We signed a contract with Shaun and they started immediately. Shaun went to meet the Safety Officer at the company and arranged for us to start work while he got our file in order.

Within a week our file was in order and the required training was given to the staff. We have since signed a short term contract with BE SAFE CONSULTANTS & PROMOTIONS, and they are helping us on an on-going basis with training and compliance.

Their price is good and the service is excellent!

I would recommend BE SAFE CONSULTANTS & PROMOTIONS to any company that needs assistance to comply with safety laws and regulations.
