

Letter of recommendation from STEIMAR.

To keep up to date with legislation and the awareness of environmental hazards of our world and in particular our industry , we appointed BE SAFE CONSULTANTS to help us achieve safer and healthier working conditions for our employees.

Their services and knowledge of occupational health has aided us in keeping our staff aware of many hidden potential health hazards.

I compliment then and inform that to date we have received only quality services , this in turn helps build trust and a good working relationship between BE SAFE CONSULTANTS and our company.

I have no reservation in recommending BE SAFE CONSULTANTS to any company needing the services of a professional OHS consultant .

STEIMAR AUTOMOTIVE AND INDUSTRIAL REFINISHERS PTY LTD
